

MOTORCYCLE MOVING SYSTEM

UFP Industrial manufactures the finest premium motorcycle moving system (MMS) in the industry. When assembled, the MMS is a rigid, impact-resistant, lockable box. Constructed from 3/4", 9-ply, Brazilian plywood with rabbeted panels, this system creates a weather-resistant seal that offers protection in any environmental condition.

The MMS comes with 4 chocking blocks; soft, sheepskin-covered straps; and adjustable ratchet tie-downs with rubber-coated, carabiner S-hooks. Eye bolts in each corner secure the bike in place. The container's end panel converts into a ramp for easy loading and unloading.

STANDARD DIMENSIONS

Exterior: 107" x 43 1/2" x 63 1/2"

Interior: 105 1/2" x 42" x 57 3/4"

SNAP-TIGHT™ ASSEMBLY

No tools or fasteners required. Steel, corrosion-resistant clips simply "snap" into precisely cut slots made by our CNC machine. The Snap-Tight design allows the MMS to easily be reused as needed.

UFP INDUSTRIAL

A UFP INDUSTRIES COMPANY
