

SNAP-TIGHT™ CONTAINERS

The perfect reusable solution for tradeshows and more

UFP Industrial's Snap-Tight™ Containers are a revolutionary design for the industrial packaging industry. This system combines our innovative Snap-Tight clips with heavy-duty plywood to make containers that are stackable as well as reusable, time after time. The strength of the plywood and the Snap-Tight technology combine to create ultra-strong, ultra-secure containers with greater stackability than standard nailed crates. These reusable containers reduce dunnage expenses, and because they're ISPM certified and heat-treated, they can be used domestically or internationally.

SNAP-TIGHT CLIPS

The Snap-Tight clips allow you to crate your items in minutes rather than hours. No tools or fasteners required. Steel, corrosion-resistant clips simply "snap" into place and hold stronger than nails or screws.

Wood components are manufactured on a high-velocity CNC machine, ensuring that the tolerance of each and every container is identical. The Snap-Tight system can be collapsed for easy storage. When not in use, the Snap-Tight system attaches the sides and top to the base, creating a smaller, one-piece unit that's convenient to store and transport.

SNAP-TIGHT™ CONTAINER OPTIONS

The Snap-Tight container can be customized and engineered to safely move fragile components across the state or across the world. Some options include:

- Side panel ramps
- Doors with hinges
- Removable slats
- Eye bolt tie-downs
- T-nut bolt-through mounting points
- Floating floors
- Mil-spec packaging
- Foam cushion runners

TRADESHOW USAGE

The Snap-Tight container system is ideal for trade shows. Having one durable, reusable crate that contains show items such as vacuums, chairs, carpeting, TVs or other essentials helps avoid expensive rental charges and reduces time spent on logistics.

UFP Industrial is an affiliate of UFP Industries, Inc., a holding company whose subsidiaries supply wood, wood composite and other products to three robust markets: retail, construction and industrial. Founded in 1955, the company is headquartered in Grand Rapids, Mich., with affiliates throughout North America. For more about UFP Industries, go to www.ufpi.com.
